PLAY FEATURES

Enjoy awesome thrills and spills with this stunt loop designed just for preschoolers!

- Snap the car body onto the chassis...

- Place the car onto the power winder, hold the car in place and crank the handle until the car is fully wound (approximately 10-15 times)...

- Place the car on the starting pad, press the button and watch it zoom around the loop!

Note: For best performance, be sure the flexible track is straight.

- Push in latch on front of chassis to remove car body from chassis.

LATCH

- Connect other track pieces from SPEEDSTARS sets (not included) to the exit ramp!

STORAGE

- Flip down tower ramp (flexible track remains attached).

- Press down arrow on flexible track and insert track into base piece.

- Flip up the exit ramp.

- Store the power winder on the side of the base (posts on base into holes in power winder).

- Store the car in the "garage" inside the base.
