

STRAWBERRY SHORTCAKE
CARD GAME

WIN BY A WHISKER

OBJECT

Strawberry Shortcake is berry fond of Custard, her cuddly, polka-dot kitten. Wherever Strawberry Shortcake goes, Custard is sure to follow, and together they share many happy days in that magical place called Strawberryland. In this game, you and your opponents swap Strawberryland cards around the table. Whoever holds the last Custard card at the end of the game is the winner.

EQUIPMENT

35 Strawberryland Cards.

SET UP

1. Mix all the Strawberryland Cards together. Then deal them out, one at a time, until there are none left. (Someone will get an extra card, but it doesn't matter at all).
2. After receiving your cards, spread them out in front of you, face up. Don't worry if your opponents can see them. Now separate your cards into as many matching "pairs" as you can. Example: You would match one Strawberry Shortcake card with another, one Huckleberry Pie card with another, and so on.
3. Once you have matched as many cards as you can, place all your completed "pairs" to the side, out of the game. Then pick up the remaining cards.
4. Select a player to go first. Play then proceeds, in turn, to the first player's left.

PLAYING

On your turn, mix up your cards and - while keeping them hidden - let the player to your left take one of your cards and place it into his or her own hand.

If the card your opponent chooses matches one already in his or her hand, the completed "pair" is placed to the side, out of the game. If the card does not match, it simply stays in that player's hand.

The player to your left now turns to his or her left and lets the next player choose a card. This continues, in turn, around and around the table: cards are exchanged, paired and placed to the side.

WINNING

Eventually, as all the cards are paired and placed to the side, one Custard card will remain. The player holding this card is the winner.
