

Super JOCK®

Super Touch® Basketball

GETTING READY

APPLYING LABELS TO SUPER TOUCH PLAYER

1. Center face label on front of head and then wrap around as shown in #1 on Figure A.
2. Apply back of basketball jersey first. Place straps of jersey to seams at the top of the shoulders. Press the jersey down the center of the back. Wrap sides of jersey around to seams on the sides of the basketball player. See #2 in Figure B. Apply the front of the jersey in the same manner. The shoulder straps on the front of the jersey should overlap the straps of the back at the shoulder. The sides of the front half of the jersey should also overlap. See #2 in Figure A.
3. Apply stripes on shorts. See #3 in Figure A.
4. Slide one stocking between the legs. Apply stocking immediately above top of shoes starting at the center of the back of the leg. Wrap around leg from inside of leg to outside of leg. Do the same for the other stocking. See #4 in Figure A.
5. Apply stripes to front of shoes as shown in #5 of Figure A. Apply stripes to back of shoes as shown in #6 of Figure B.

ASSEMBLING BACKBOARD AND BASKETBALL HOOP

1. TO ASSEMBLE BASKETBALL HOOP: Weave the net in and out through the small plastic tube as shown in Figure C. Keep moving net through the tube until the basket is formed.
2. TO ASSEMBLE BACKBOARD: Align bracket back to holes on the backboard. Press bracket front into the holes of the backboard snapping front and back bracket together. See Figure D.
3. Push the ends of the hoop into the tabs on the bracket front. See Figure E.
4. Push back bracket extension into pole and press pole into base as shown in Figure D.

Game Play Rules on other side.

AIM OF THE GAME

Be the basketball pro who outshoots all opponents! Make the most baskets and you're the winner!

HOW TO OPERATE SUPER TOUCH PLAYER

To shoot a basket, place the basketball on Super Touch's hand. Aim carefully at the net. Whack Super Touch on the top of the head with your fist or the palm of your hand. Super Touch will send the ball flying through the air!

THE WAY TO PLAY

SETTING UP THE COURT: Clear the floor and make room to set up a court for Super Touch. It should be 10 feet long by 5 feet wide. Center the basket at the end of the court. Next, measure off 5 feet away from the basket. Use a piece of paper to mark this line. The area from the basket to this line is the Freethrow area. See illustration below.

REGULAR GAME: Divide the game into 4 quarters just like a regular basketball game. During

each quarter, every player gets 5 tries to make a basket with Super Touch. You receive 2 points for every basket made in the Freethrow Area and 3 points for every basket made out of the Freethrow Area. See illustration below. The player who scores the most points in the game is the winner.

SPECIAL ONE-ON-ONE GAME: Place Super Touch anywhere on the court and try to make a basket with one shot.

- IF YOU MAKE A BASKET, your opponent gets 2 shots from the very same position and tries to match your shot.

—If your shot is matched, you receive 0 points.

—If your shot is not matched, you receive 2 points.

Now it's your opponent's turn to place Super Touch and attempt a basket that you will try to match.

- IF YOU DON'T MAKE A BASKET, it's your opponent's turn to place Super Touch anywhere on the court and attempt a basket that you will try to match.

Play as above until one player scores 10 points and wins the game!
