The Story of TEDDY RUXPIN™ and GRUBBY™

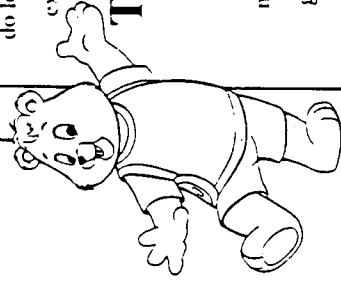

Maybe you already know about Teddy Ruxpin and his good friend, Grubby – about their travels through the Land of Grundo and their wonderful adventures as they search for the missing half of a magic medallion. But maybe you don't. So here's a little history:

Teddy and Grubby meet lots of wonderful new friends:

Teddy Ruxpin met Grubby in Rillonia and they've been best friends ever since.

Teddy Ruxpin and Grubby set out for adventures in Grundo and have lots of fun and do lots of exciting things. Grubby loves to go exploring, so together, they make perfect traveling companions.

Throughout their journeys Teddy Ruxpin and Grubby meet lots of wonderful new friends. And they have a way of making friends for life, which is a very good thing. Because they are about to make friends with you, too.

The Story of the Telephone

We didn't always have telephones. In fact, before there were telephones, the only way to talk to someone was to visit them. The telephone was invented by a man named Alexander Graham Bell. That was a long time ago – in 1876.

Telephones are a very important part of everyone's lives today. They're important to families and friends, and to businesses too.

People can easily talk to each other from halfway around the world. And some day there will be picture phones so you can actually see the person you're talking to. If Alexander Graham Bell were still alive, he would be very surprised to see how big his invention has become.

How to Use a Real Telephone

There are certain manners that are just for calling, answering, and talking on a real telephone. Here are some of them:

Making a Call. . . Whenever you call someone, always introduce yourself when they answer. It is not polite to ask people to guess who you are. And you should never expect people just to know your voice. Another very polite thing to do is to ask people if they have time to talk.

Teddy and Grubby are about to make friends with you.

Here are some ways to introduce yourself:

- Hello, this is Kimberly.
(Put in your own first name.)
- Hi, this is Max, are you busy?
- Hello, Grandma? It's Ashley.

Do you have a minute to chat?

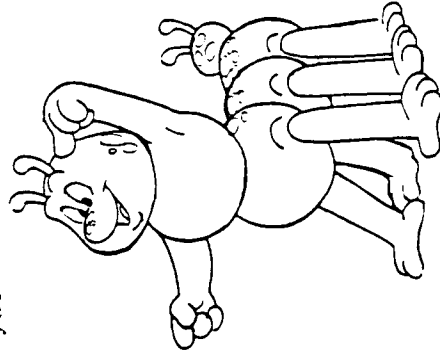

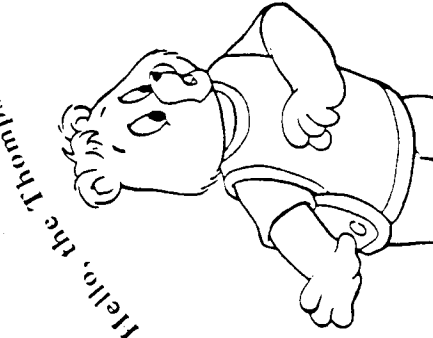

Answering the Phone

You should always answer a phone call in a pleasant, polite voice. And it's nice to say who you are. Here are some very polite ways to answer the phone:

Hello, Alex speaking. (Use your own name.)

Hello, this is Victoria. Can I help you?

Hello, the Thompson residence. (Put in your own last name.)
