TANK CONVERSION

To convert tank to robot, simply follow these step-by-step instructions. Laser gun and light unit can be positioned on tank as shown. Remove gun and light unit to begin tank conversion.

NOTE: Excessive force is not necessary.

LIGHT UNIT

LASER GUN

STEP 1

Pull back slightly on rear tank body, then pivot downward as shown. Open leg hatches.

LEG HATCHES

REAR TANK BODY

STEP 2

Fold legs downward, then snap into position shown.

STEP 3

Pivot lower body into upper body section until they lock in place, then close leg hatches. Pull out robot feet. Fold robot arms out to the sides as shown.

STEP 4

Swing arms downward. Rotate lower arm sections around so robot fists face forward as shown.

STEP 5

To position forearms, pull down (ILL. 5A) and upward as shown (ILL. 5B). Insert laser gun on right unit post into either robot fist.

OPERATING ROBOT SOUNDS

Slide cannon over to the robot's right shoulder until head pops up and you hear "Megatron™". Press down on robot head to repeat "Megatron™ attack!"

OPERATING ROBOT SOUNDS (CONT.)

Swing left robot arm up to hear laser firing sound. Refer to "OPERATING CANNON" steps to hear cannon sounds and shoot missiles.

MISSILE STORAGE

Open leg hatches. One missile can be stored on inside groove within each leg as shown.

FINISH

When converting robot back to tank, reverse the order of these instructions. Peel and apply labels as shown.

WARNING: Contains small parts which may present a choking hazard to children under the
