CHOKING HAZARD — Small parts.

Not for children under 3 years.

THE CLASSIC
TINKERTOY[®]
CONSTRUCTION SET

Thank you for purchasing the Tinkertoy[®] Special Edition Crane set! Each year, a different and exciting Special Edition theme will be introduced to keep the building play fun and fresh. With this set, you can combine real wood and plastic pieces to create large-scale working cranes with string to lift the bucket and wrecking ball. Refer to the pictures on the package to build a Special Edition crane or other designs. Look for other Tinkertoy[®] building sets to make the creations shown in this design guide. For even larger structures, combine this set with other sets - the only limit to what you can build is your imagination!

Thank you for purchasing this Tinkertoy® construction set, an American classic.

Because of the nature of wood and wood finishing techniques, there may be variations in color, texture and finishing for some pieces.

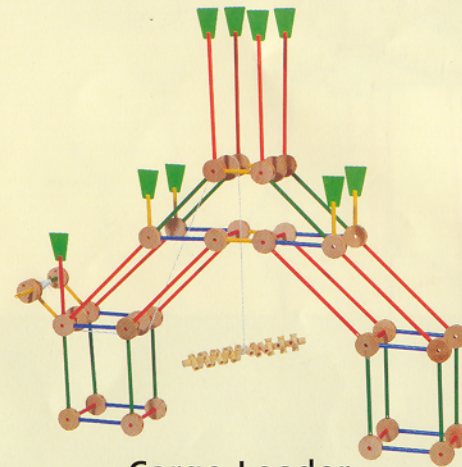

These variances do not affect the quality or performance of the Tinkertoy® product.
