

AGES: 5 & UP

CHAINSAW STEEL MONSTER™

Part Chainsaw...Part Truck...All Monster!

OPERATING INSTRUCTIONS

NOTE TO PARENT: Before operating vehicle, use safety scissors to cut and remove plastic cable running through power button.

1. Place vehicle so that all four wheels are on the ground. Be sure power button is in **UP** (raised) position.
2. Grasp handle and pull the cord several times. **THE FASTER AND HARDER YOU PULL, THE LOUDER IT REVS AND FARTHER IT GOES!**
3. Push the power button down to release the vehicle. Remember, traveling distance depends on how fast and hard you pull the cord.

IMPORTANT OPERATING TIPS:

Each time the vehicle stops rolling, the power button must be pulled up before pulling cord to rev vehicle. Also, roll the vehicle forward to fully disengage the gears before revving again.

When vehicle is stopped suddenly, it is normal to hear a loud grinding sound as the gears disengage. (Chainsaw Steel Monster is equipped with a protective mechanism to prevent gears from stripping.)
