MAXIMAL™ RATTRAP™ FUNCTION: SPY

Following the quantum surge, Rattrap gained the advantage of a meched-out armor shell and a swift dragster vehicle mode. A top-notch soldier, his fellow Maximals rely on his reconnaissance reports to locate enemy outposts. The new hot rod mode has increased his speed and agility on the battlefield, and a powerful, battle-whip blade that he wields while in robot mode has made him a powerful adversary to all Predacons.
