A. Launcher Functions

Figure comes in his beast mode. These drawings show function of the weapons.

BATTERY INSTALLATION

Loosen screw and lift battery compartment cover off. Insert two "AA" batteries.

Battery Compartment Cover

"AA" Batteries

CAUTION: To avoid battery leakage, (1) Be sure to insert the batteries correctly and always follow the toy and battery manufacturer’s instructions. (2) Do not mix old and new batteries or alkaline, standard (Carbon-zinc) or rechargeable batteries. (3) Always remove exhausted or dead batteries from the product.

BLAST PANEL LOADING AND FIRING

A. Center Blast Panel
B. Side Blast Panels
C. Holding all 3 together, press down, looking into place.
D. Press tab on arm in direction of arrow to fire blast panels.

MISSILE LOADING AND FIRING

A. Set center blast panel in place as shown.
B. Insert side blast panels.
C. Holding all 3 together, press down, looking into place.

To load launcher, line up missiles with notch as shown.

Pull tab out to fire missiles.

2 missiles can be stored in leg panels.

NOTE: Some parts are made to detach if excessive force is applied and are designed to be re-attached if separation does occur. Adult super
B. Ground Assault Mode

**STEP 1** Launcher and Turret

A. From beast mode, raise launcher and turret.  
B. Pull canopy down.  
C. Pull back and down on turret and hinge to lower launcher again.

**STEP 2**

Open shoulders. Raise chest panel and swing wheel out. Close shoulders.

**STEP 3**

A. Rotate launcher assembly and canopy as shown.  
B. Holding canopy, rotate launcher and turret assembly only around as shown.

**STEP 4**

Rotate and position arms as shown. Insert pins into holes on sides of wheel bracket. Rub hidden Energon™ Chip to reveal true allegiance.

**STEP 5**

Join legs together with pin in hole. Flip wheel panels around.

**STEP 6**

Lay down, position feet as shown, angling knee joint. Position canopy back as shown. Position wings. Pull back on thruster to fire missiles. Press button to activate lights. Convert to C. Hypersonic Attack Mode next.

NOTE: Reverse the order of instructions to convert robot back into animal mode.
C. Hypersonic Attack Mode

STEP 1
Separate hands and pull arms out at shoulders as shown.

STEP 2
Pull shoulders out. Fold wheel into chest and rotate chestwheel assembly as shown. Pin shoulders back together. Position outer wings.

STEP 3
Flip up rear wheel panels. Position rear wings and hands as shown. Then lower canopy into position. You can fire missiles and eject blast panels in this mode. Convert to D. Robot Mode next.
D. Super Robot Mode

STEP 1
Position arms and large wings as shown. Flip feet down. Position hands.

Larga Wing

STEP 2
From back: A. Pull shoulders out. B. Raise chest, pull wheel out. Fold beast head back into chest and close chest. Separate wheel as shown. C. Rotate arms/shoulders forward. Find second hole and insert peg into it.

Wheel Halves

STEP 3
Rotate launcher assembly up and canopy around.

STEP 4
Rotate launcher down. Push canopy up. From top of launcher, rotate robot head up. Rotate torso around.

Robot Head

Canopy

Launcher
Attach blast panels to shoulders to become armors as shown. Position thumb and place attack weapon in hand.
