TRANSPORTATION MODE

Raise turbines. Rub hidden Energon™ Chip to reveal true allegiance. Flip feet up and lower blades. Close turbines and roller blades before changing animal into robot.

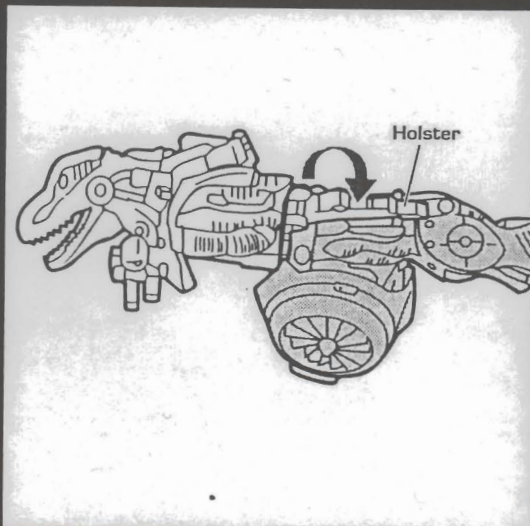

STEP 1

Remove animal tail/weapon and set aside. Raise animal hips and open side panels.

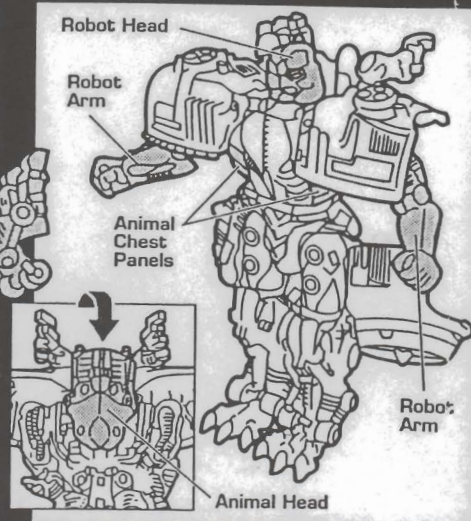

STEP 2

Extend animal legs back and rotate lower half of robot completely around. Position holster.

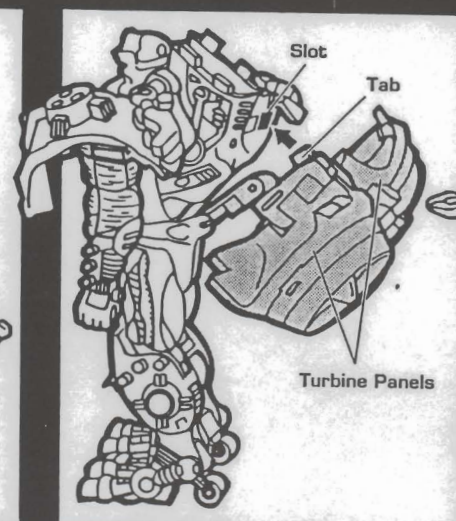

STEP 3

Stand robot up then pivot animal chest panels and robot arms out into position as shown. Rotate animal head down and into robot's back.

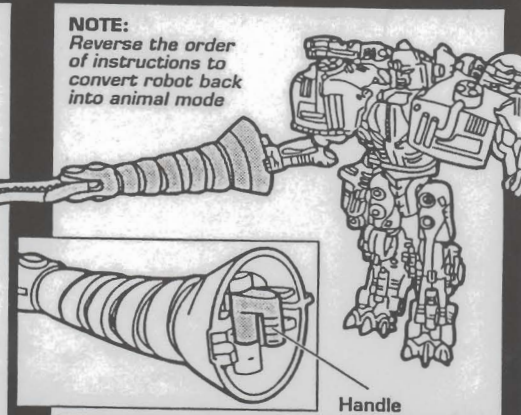

STEP 4

Tilt turbines back then raise them inserting tab into slot in back of animal's head.

STEP 5

Rotate handle in tail weapon out and place in robot hand as shown. Manually open and close claw.
