TRANSMETAL™ OPTIMUS PRIMAL™

**TRANSPORTATION MODE**

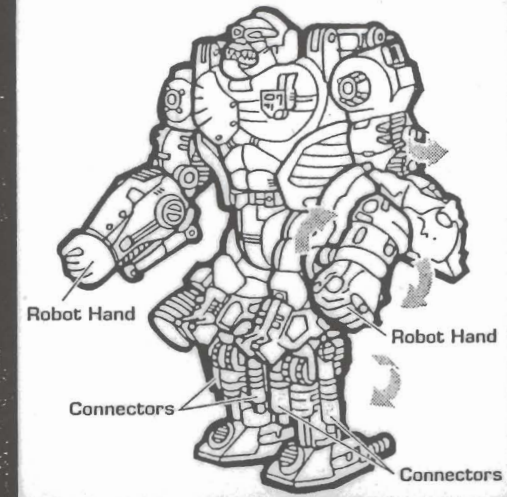

Place missiles into backpack as shown. Rotate skateboard sections down. Rotate skateboard connectors to center and connect together. Reverse procedure to continue transformation into robot mode.

**NOTE:**  
Some parts are made to detach if excessive force is applied and are designed to be re-attached if separation does occur. Adult supervision may be necessary for younger children.

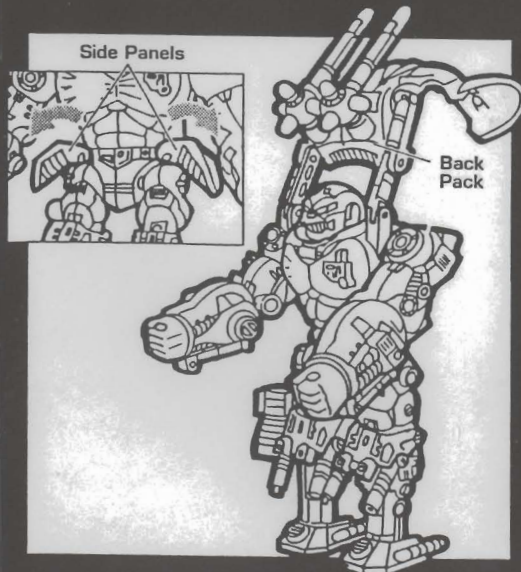

**STEP 1**

Straighten robot legs and rotate skateboard sections to become robot feet. Position connectors as shown. Open forearms. Pull up and rotate robot hands around. Close forearms.

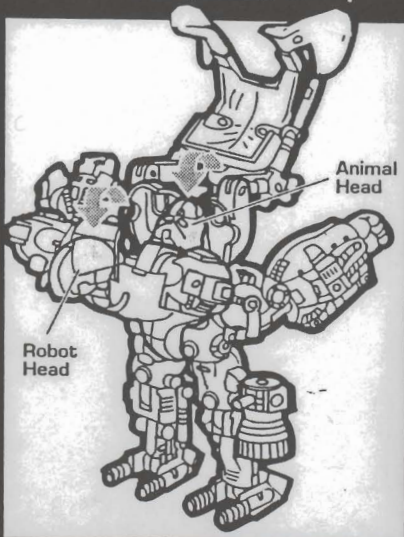

**STEP 2**

Lower side panels, then raise back pack.

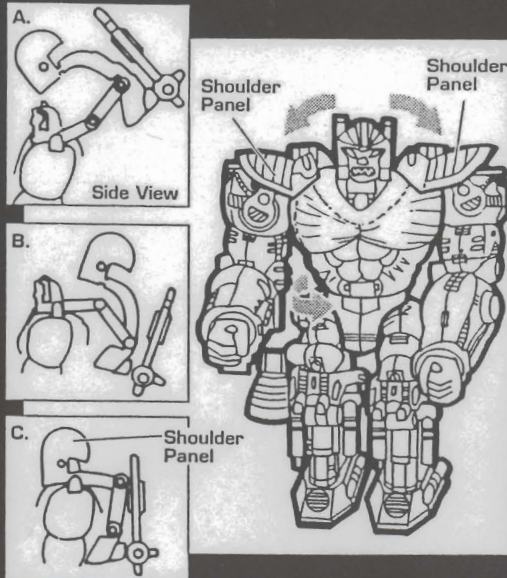

**STEP 3**

Turn around. Separate chest halves at shoulder. Rotate animal head down and robot head up. Close chest panel.

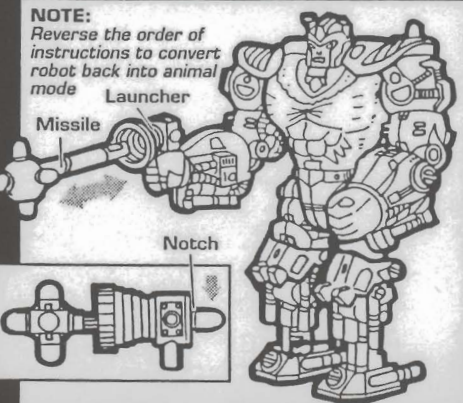

**STEP 4**

Lower backpack as shown (A, B & C). Lower shoulder panels. Rotate torso at waist.

**STEP 5**

Detach launcher and place into hand. Insert missile into launcher. Notch in missile hooks on back of launcher. Press down on back of missile to fire.

**Kenner**
