MAXIMAL™ SNARL™

FUNCTION: SURPRISE ATTACK

Snarl is seldom seen until the instant he attacks. His camouflage coloring allows him to sneak into Predacon basecamps undetected. Powerful legs give him the ability to lunge forward to attack startled enemies, and in robot mode he can jump straight up to escape incoming missile fire. Snarl is a fearless fighter whose gnashing, serrated teeth and razor-sharp claws are enough to fend off would-be attackers...if they know what's good for them!
