

# EVIL VEHICON™

## SONIC ATTACK JET

Aerial Drone

**Function:**  
Aerial Combat

Controlled by the Vehicon Aerial General, Jetstorm, or by Megatron himself, the Vehicon Sonic Attack Jet is a mindless automaton that relies on sheer numbers to overpower Maximal forces. Sonic Attack Jets attack with overwhelming speed and ammunition, strafing their enemy with lethal scatter bombs and plasma lasers. Equipped with an automatic evacuation command to rescue Jetstorm when he's taken out of battle, they are otherwise harmless without his or Megatron's leadership.
