Motto: "I'm very good at what I do - maybe too good!"

Night Viper is the stealthiest Maximal. His tail acts as a repulsor rocket, providing supersonic speed. Internal radar scramblers allow him to move virtually unseen in both robot and beast mode. His robot mode features frictionless

surface, increasing his speed and making him an extremely hard target. Armor alloys deflect most energy pulses. Recycles enemy fire into plasma venom blasts that short circuit Vehicons' circuitry.

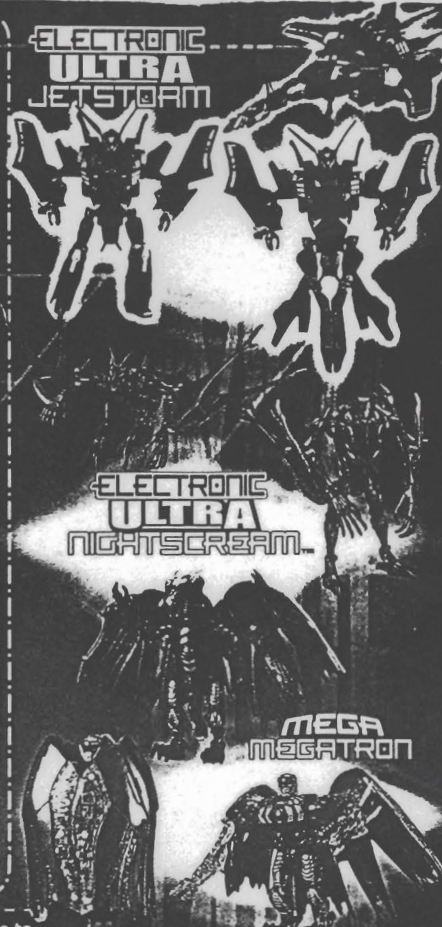

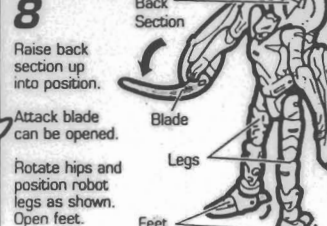

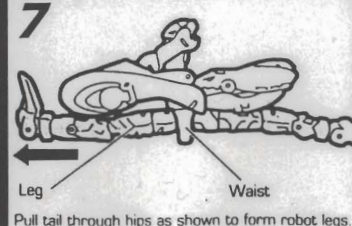

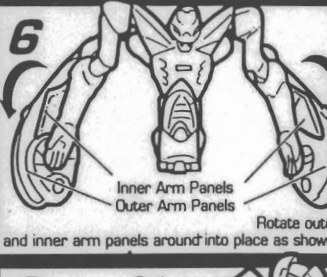

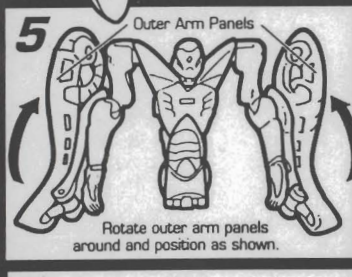

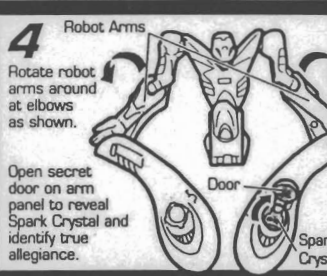

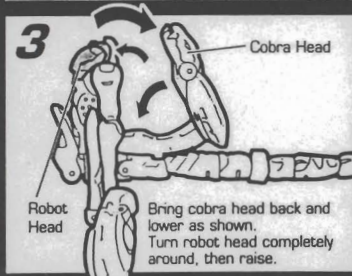

INSTRUCTIONS: Excessive force is not necessary. Some parts are made to detach if excessive force is applied and are designed to be re-attached if separation does occur. Adult supervision may be necessary for younger children.
