CHEETOR™**

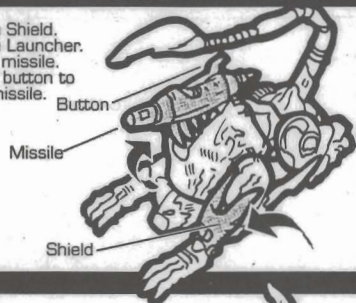

FUNCTION: ROBOTIC JUNGLE PATROL

Emerging from an explosion caused by Megatron's dangerous cloning experiments, Cheetor is experiencing some unusual growing pains. The lines between beast and robot have blurred, creating a new Cheetor even faster and more ferocious than ever before. But he must learn to control his new capabilities—instead of being controlled by them. Outfitted with a new high-powered missile launcher and leap-thruster, the new ultra-strong and somewhat unpredictable Cheetor strikes fear into the circuits of all Predacons he encounters.

INSTRUCTIONS: Excessive force is not necessary. Some parts are made to detach if excessive force is applied and are designed to be re-attached if separation does occur. Adult supervision may be necessary for younger children.
