MAXIMAL™
OPTIMUS MINOR™
FUNCTION: GROUND COMMANDO

Due to Megatron's rash cloning experiments, the Maximals are joined by another new ally; Optimus Minor is a cybernetically-enhanced monkey with unparalleled speed and agility. Possessing superior balance and climbing abilities, this highly intelligent cyber-primate must learn to control hostile instincts—a side-effect of Megatron's experiments—and a ferocious advantage in battle. The Predacons learned quickly that Optimus Minor's presence is no laughing matter.

INSTRUCTIONS: Excessive force is not necessary. Some parts are made to detach if excessive force is applied and are designed to be re-attached if separation does occur. Adult supervision may be necessary for younger children.

Reverse the order of the instructions to convert back into Beast mode.

Have an adult cut along dotted lines.
