MAXIMAL™
RAMULUS™

FUNCTION: SCOUT, SURVIVALIST

Ramulus' size pod crashed in a mountainous region of prehistoric Earth during the onset of the quantum surge. Isolated, damaged and forced to develop his own survival tactics, Ramulus trusts neither Maximal nor Predacon alike. He is reluctant to fight, but brash and impulsive once provoked. Characteristically calm and reliable when venturing through unexplored territory on his own. Relishes adventure and argues that the Maximal's success depends on their continual repositioning and relocation. Longs to see Cybertron. Ramulus wields a double slagmaker cannon in robot mode and his fractured Spark crystal generates disruptive ion pulses.

INSTRUCTIONS: Excessive force is not necessary. Some parts are made to detach if excessive force is applied and are designed to be re-attached if separation does occur. Adult supervision may be necessary for younger children.

1 ATTACK MODE

Flip horns forward as shown. Move lever back and forth to make horns move.

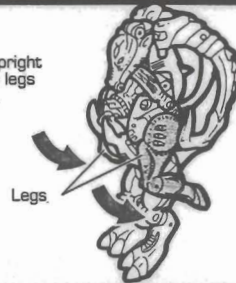

2

Return Ramulus to original position. Flip head panel down and reveal Spark Crystal to show true allegiance.

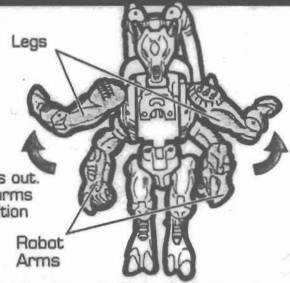

3

Hold Ramulus upright and rotate front legs down as shown.

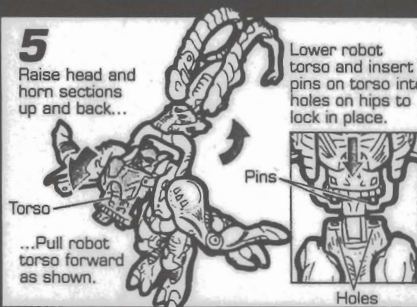

4

Pivot front legs out. Extend robot arms down and position as shown.

5

Raise head and horn sections up and back...

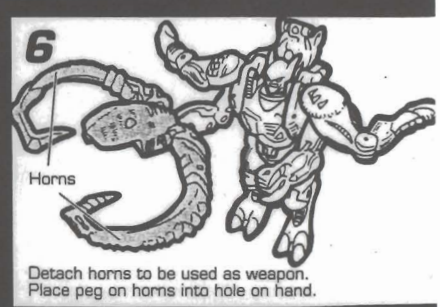

...Pull robot torso forward as shown.

Lower robot torso and insert pins on torso into holes on hips to lock in place.

6

Detach horns to be used as weapon. Place peg on horns into hole on hand.
