MAXIMAL™
STINKBOMB™

FUNCTION: PSYCHOLOGICAL WARFARE

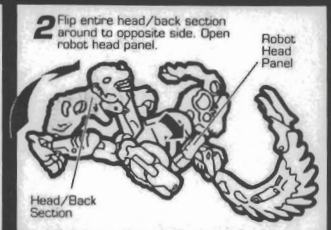

MOTTO: "Nine-tenths of the battle is fought within the imagination"

A strategic specialist, Stinkbomb is fascinated with the study of Pradaconial psychology. Understands the power-driven Pradacon mindset and delights in manipulating it to Maximal advantage. Once taunted for his unpleasant odor, Stinkbomb's sharp wit, cunning tactics and dangerous intelligence quickly earned the respect of his colleagues. Regarded by Optimus as a valued advisor and fierce warrior. Relies on serrated tail for close range combat. Photon emitters in optical sensors project hypnotic light spectrum capable of lulling enemies. Foul chemical spray causes temporary paralysis-nasty odor remains for weeks unless victim bathes in tomato juice.

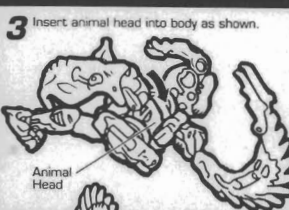

INSTRUCTIONS: Excessive force is not necessary. Some parts are made to detach if excessive force is applied and are designed to be re-attached if separation does occur. Adult supervision may be necessary for younger children.

1 Rotate head and back section forward. Open flap on leg to reveal Spark Crystal and show

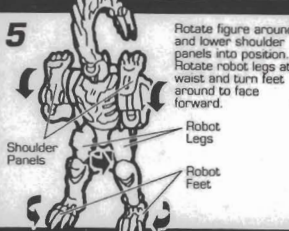

2 Flip entire head/back section around to opposite side. Open robot head panel.

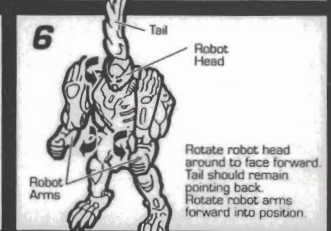

3 Insert animal head into body as shown.

4 Close robot head panel.

5 Rotate figure around and lower shoulder panels into position. Rotate robot legs at waist and turn feet around to face forward.

6 Rotate robot head around to face forward. Tail should remain pointing back. Rotate robot arms forward into position.

Reverse the order of the instructions to convert back into Skunk.

Have an adult cut along dotted lines.
