INSTRUCTION BOOKLET
To transform Sky High figure to attack mode,
1. Separate halves of figure. Fit robot into groove in rear half of figure. Snap together front and rear of figure.
2. Swing up figure’s arms behind back.
3. Fit belt around figure’s waist. Remember, the figure can be used to “hide” the robot, or it can be used as a separate action figure!

To transform back, reverse the order of the instructions.

Peel and apply labels as shown.

Each Transformers has different levels of strength, speed, skill, etc. Clip the bio card and Tech Specs from the package. Use the special red decoder enclosed to decipher the specs—just lay it over the graph!
