Turn fighter jet over. Swing base of jet forward to form robot legs and hips.

Full out shoulders, then fold arms out and down. Set the propellers on the robot.

Twist rear of jet. Turn the arm of the robot. Open the mouth of the robot.

Fold jet in half to form robot body and reveal robot head. Separate feet.

Position arms as shown and attach launcher. Place the propeller in the missile.

Reverse order of instructions to convert back into jets.

Peel and apply labels as shown. Apply the autocollants as indicated. Place the stickers as indicated on the robot.
