

THE TRANSFORMERS

ROBOTS
IN
DISGUISE

GENERATION 2

EVIL DECEPTICON® DELUGE™

SET INCLUDES:

Includes "Deluge"™ car, water weapon, label sheet and instructions.

Product and colors may vary.

Caution: Do not point weapon at eyes or face.

WATER WEAPON

"DELUGE"™ CAR

NOTE: Adult supervision may be necessary for younger children. Do not leave vehicle in sunlight, or any other intense light, for any extended period of time.

START

Enter the world of Transformers®, where the new generation of Heroic Autobots® and Evil Decepticons® battle head to head in a world where things are not what they seem! To convert car to robot, simply follow these step-by-step instructions.

NOTE: Excessive force is not necessary.

STEP 1

To make the robot, remove water weapon from vehicle.

STEP 2

Swing out car chassis from below and swing forward. Turn arms up as shown.

STEP 3

Pull out shoulder sections and pull up on center piece.

STEP 4

Twist the entire top section around to position as shown. Pull out feet and stand up robot.

**STEP 5**

At pivot point shown, swing top section toward rear as shown.

**STEP 6**

Lower the top section backwards to reveal robot head. Swing arms to position as shown (ILL. 6A). Fit water weapon post into arm hole (ILL. 6B). Water weapon can also be used as a hand held weapon.

**STEP 7**

Press down on water weapon plunger and insert front of weapon into water. Release plunger to draw water up into weapon (ILL. 7A). Press down on plunger to squirt water (ILL. 7B).

Shoot warm water at vehicle hood to reveal battle damage and Decepticon® symbol. Shoot cold water to bring back the original appearance.

FINISH

When converting robot back to car, reverse the order of these instructions. Peel and apply labels as shown.
