TO PLAY

Meal Time

Make sure your doll is wearing a securely fastened diaper, before feeding her.

To feed your doll:

1. Fill her bottle with clean, cold water or add a packet of Baby Alive® doll Juice mix (sold separately) to the water.
2. Replace bottle's cap.
3. Hold your doll in a reclining position. Make sure that her head is higher than her tummy.
4. Place bottle nipple securely in doll's mouth. Gently squeeze bottle and liquid will flow into her mouth. She drinks!

Important feeding guidelines

- Use only cold water or Baby Alive® doll juice (sold separately). Never feed doll real juice or other beverages.
- Do not feed her Baby Alive® doll food; it is not designed for your Sweet Slumbers™ doll.

Do not feed doll more than one bottle of water or doll juice (sold separately) between diaper changes.

Diaper time

After you give your doll a drink, you'll need to change her diaper. Wipe her clean with a soft, damp cloth or paper towel, then put on a new diaper. Always change your doll's diaper and clean her after she drinks; never let her sit with a wet diaper. Discard wet diapers; they cannot be washed or reused.

Important cleaning instructions

It is important to rinse doll clean immediately after each use. If using doll juice (sold separately) and any juice remains in the doll, it can become difficult to clean.

- To clean doll after feeding her doll juice, give her a bottle full of water until any remaining juice has been rinsed away and the water runs clear (it's best to do this over a sink). Use a soft cloth or paper towel to wipe away any juice on doll's mouth. Allow doll to dry.
- **STAIN ADVISEMENT:** Baby Alive® doll juice (sold separately) may stain some surfaces. Adult supervision recommended. If spilled, wash with soap and water.
- Clean doll's face and body by wiping gently with a soft, damp cloth.
- Do not submerge doll in water; it is not intended for bath-time play.
- Do not place any foreign objects in doll's mouth or any other opening.
- Doll's nightgown and t-shirt are machine-washable (mild detergent, cold water, gentle cycle); they can also be spot-cleaned with a cool damp cloth; hang to dry.
- Hand-wash bottle with mild dish soap and water; it is not dishwasher-safe.
