**LAUNCHING**

1. Holding launcher in left hand, insert ripcord into Wheel Launcher™.

2. Attach Spirit Axle side of Beywheelz battler to Wheel Launcher and twist toward you.

3. Holding the launcher in your left hand, pull the ripcord with your right hand. For increased accuracy, try pushing the launcher away from you with your left hand.

- Do not launch with wheel touching the ground.
- Never launch while lying on your stomach.

**BATTLING****3, 2, 1... Let It Rip™!**

Count down and launch Beywheelz together at the same time (other Beywheelz sold separately). This makes battles fair, fun and exciting. Practicing your technique and accuracy will also help improve battle results.

Crash Battles

Two players launch their Beywheelz battlers toward each other.

- If the two battlers collide, the battler that wins is the one that stops closest to the point of collision. The battler that loses is the one that is knocked furthest away.
- If the two battlers collide, and one stops while the other continues to roll, the battler that wins is the one that continues to roll.
- If two battlers pass each other without colliding, it's a tie.

Stunt Battles

Perform stunts using the Beyarena™ or Crash Course Battle Set™ (each sold separately). Battle with your friends and see who can do the most awesome stunts.

Race Battles

Players launch side by side toward a designated finish line. The first battler to cross the finish line wins.

Each product sold separately.
