# BUCKAROO!

## INSTRUCTIONS For 2+ Players • AGES 4+

**WARNING:**  
CHOKING HAZARD—Small parts.  
Not for children under 3 years.

So, you're getting ready for another Toy Story adventure and you've got a whole mess of gear to take with you. Luckily your trusty sidekick Bullseye is here to help, but watch out – he's so excited, even the slightest movement could spook him.

In this saddle-stacking game, you never know when Bullseye will buck, and send the gear flying. So be real careful-like, pardner. One buck, and you're out of luck!

## OBJECT

Load gear onto Bullseye without making him buck. If he bucks, or if any gear falls off, you're out of the game. To win, load the last piece, or be the last player left in the game.

## CONTENTS

Plastic Bullseye with base • Plastic game pieces: Saddle (3 pieces), Woody's cowboy hat, Woody's cowboy boot, Woody's boot spur, Sheriff's star badge, Prospector Stinky Pete's pickaxe, Rope, Lantern, Guitar, Horseshoe, Wagon wheel and Cactus

## THE FIRST TIME YOU PLAY

Remove the game parts from their plastic wrappings. Discard the wrappings.

1. Attach Bullseye's front legs to the base, by sliding the foot tabs forward into the runners. Then press the feet all the way down, until they snap into place and slide back. See Figure 1.
2. Slide the switch (see Figure 2) to the skill level you want: 1, 2 or 3. The higher the skill level, the more sensitive Bullseye will be, and the more likely he'll be to buck.
3. Snap the stirrups into the saddle as shown in Figure 2.
4. Attach Bullseye's saddle by fitting the tab into the groove in his back. See Figure 2.

Note: The saddle will not lie flat on Bullseye's back.

## GET READY!

1. Place Bullseye on a flat surface, with the pile of gear off to the side where everyone can reach it.
2. Push Bullseye's bottom down until his back legs touch the base. Then push his tail down to lock him into place. See Figure 3.

Gently remove your hand so that you don't accidentally make him buck!

## HOW TO PLAY

The youngest player goes first by gently resting the third saddle piece on Bullseye's saddle as shown in Figure 4. Play then continues to the left.

## On Your Turn

Carefully hang or place one piece of gear (your choice) on Bullseye. Place the piece on the saddle—either on one of the hooks, or on another piece of gear that's already there.

As you place the piece, don't touch Bullseye. You don't want to do anything to set him off!

- If he bucks while you're placing the piece; or if that piece, or any other piece, falls off of him, you're out of the game.

If Bullseye bucked, push his bottom down again and lock him into place, as shown in Figure 3. Return any bucked-off gear to the pile next to Bullseye. Now it's the next player's turn.

- If no pieces fall off, and Bullseye doesn't buck, good for you. You're still in the game, and it's the next player's turn.

## Two Ways to Win

Keep taking turns trying to load gear onto Bullseye's saddle, until one of the following happens:

- A player successfully places the last piece of gear. That player wins the game! OR
- Only one player remains in the game. That player wins!

## STORING YOUR GAME

When you're done playing, carefully lift Bullseye's front feet off the base. Then place all of the game parts into the box, for easy storage.
