

CANDY LAND® CASTLE GAME

For 1 to 4 Players / AGES 3+

CONTENTS

Candy Land Castle • 4 Cardboard Gingerbread Kids
Gameboards • 18 Shaped Tokens

OBJECT

The gingerbread kids have lost their colorful decorations!
Help them find new ones by matching the colorful tokens
with the shapes on your Gingerbread Kid Gameboard.

SETUP

- Set the Castle on a flat surface where each player can reach it.
- Make sure the Candy Cane is pushed back, then load the colored tokens one at a time into the top of the Castle. NOTE: Loading more than one token at a time may cause the tokens to jam. If this happens, turn the castle upside down to remove the tokens and reload them one at a time.
- Each player chooses a Gingerbread Kid Gameboard and places it faceup within reach.
- The player whose birthday is next goes first.

GAMEPLAY

On Your Turn

- Pull the Candy Cane toward you and a token will come out the chute. If the Candy Cane was not pushed back at the start of your turn, push it back then pull it forward to get your token.
- If the token MATCHES one of the colored shapes on your gameboard, keep it and place it on the gameboard.
- If the token DOES NOT MATCH any of the colored spaces on your gameboard, place it back in the Castle.
- Your turn ends. Play passes to the left.

WINNING

Be first to match all of the spaces on your gameboard and you win!

Not suitable for children under 3 years because
of small parts – choking hazard
