

HOW TO PLAY IN TEAMS

If you have **more than four** players, you can play Kid Cranium in teams. A team can be any number of people, from one to four or more.

When it's your team's turn, roll the die and draw your SOLO or COMBO card.

If your team rolls a SOLO, you and your teammates do the challenge on the card together. The other teams watch and check your answer.

If your team rolls a COMBO, choose **one** player on your team to do the challenge while all the **other teams** try to guess. (The people on your team **don't** guess.) If another team shouts out the correct answer, both teams place tokens on the board. Your team chooses the spot.

ON YOUR TURN

1. Roll the die to see which kind of card you get—SOLO or COMBO.
2. Draw your own card and read it **out loud** so everyone can hear you. Your card tells you what to do and how to place your tokens if you succeed.
3. When you're ready, start the timer and do your Kid Cranium challenge.
4. Did you beat the timer? Congratulations! Place your tokens.
5. Pass the die to the player on your left. Your turn ends after one card.

IF YOU SUCCEED ON A Solo CARD

Way to go! Put one token on any open spot. No one can place a token on top of yours.

IF YOU SUCCEED ON A Combo CARD

Excellent! You put one token on any open spot, **and** the player who shouted out the right answer puts a token on top of yours. **Both** of you can use this spot to go for your four-in-a-row win. If nobody guesses correctly, you may **not** place tokens on the board.

HOW TO WIN

If you're first to get four tokens in a row, you win! **But** you can win **only** on a SOLO card! If you have three tokens in a row and roll a COMBO, you still get to place tokens if you succeed—just not on the spot that would complete your four in a row. Only a SOLO card gives you a chance to go for the winning spot.

FOR EXAMPLE

Blue would have to roll a SOLO to play for this spot and get four tokens in a row to win.

If Orange shouts out Blue's COMBO answer, Blue **can't** choose this spot, because it would give Orange a four-in-a-row win on a COMBO.

What if nobody gets four in a row?

This happens sometimes. Keep playing until the board is full. The player with the most tokens on the board wins the game.
