Chocolate-Dipped Brownies & Cinnamon Stick Pretzels

Each mix packet makes 2 brownies or 2 pretzels

First Steps

- Preheat **EASY-BAKE** oven for 15 minutes.
- Spray baking pan with cooking spray.

Now let's mix and bake:

1. First, choose a mix. Do you want to make brownies or pretzels?

Brownie Ingredients

- 1 EASY-BAKE chocolate brownie mix
- 1½ teaspoons water

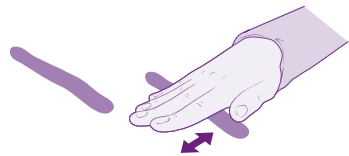

Pretzel Ingredients

- 1 EASY-BAKE cinnamon stick pretzel mix
- 4 teaspoons water

2. Pour 1 mix and the right amount of water into a bowl. Stir and press the mixture together until you form the dough.
3. Use your hands to shape the dough into a ball. Sprinkle flour on your hands if the dough is too sticky.
4. Split into 2 pieces.

Roll to make 2 log shapes.

5. Lightly spray the shape molds with cooking spray. Then press the rolled pieces of dough into the shape molds.

6. To take the dough out of the molds: Use a toothpick or fork to loosen one corner, and then slowly peel the dough out.
7. Place both pieces of dough on the **sprayed** baking pan.
8. Bake for 12 minutes. (See: **Baking Basics**.) Let cool for 5 minutes.
9. Repeat the steps to make all of your brownies and pretzels..

Dipping Fun!

1. **Make the chocolate dip:**

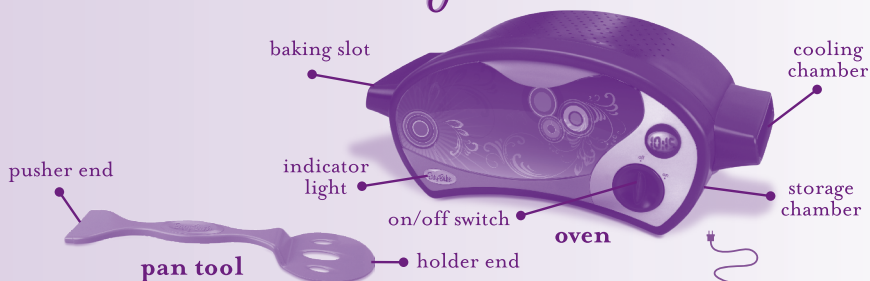

Pour 1 chocolate dip mix and 4 teaspoons of water into a bowl. Stir until smooth.

2. Serve chocolate dip with your freshly baked brownies and pretzels!

Enjoy!

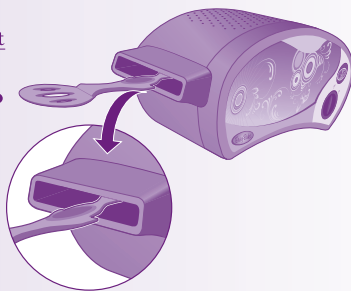

Baking Basics

1. Place the baking pan in the baking slot as shown.

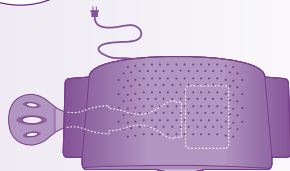

2. Use "pusher end" of pan tool to push pan into baking chamber. Stop when the widest part of the handle lines up with the bottom edge of baking slot as shown. **Do not use your hands to push pan in. Do not leave pan tool in oven.**

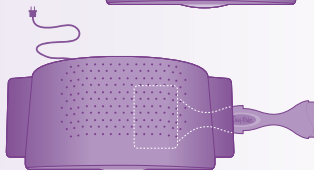

Look inside the oven to make sure the metal doors are closed on both sides. If one door is slightly open, use the pan tool to push it shut. If the pan is sticking out on the other side, you'll need to push the pan all the way through (Step 3), take it out (Step 4) and start again (Step 1).

3. When baking time is done, use "pusher end" of pan tool to push pan all the way through to cooling chamber. **Be careful - pan is hot!** Allow pan to cool in the cooling chamber for the time specified in the recipe.

4. When cooling time is complete, use "holder end" of the pan tool to remove the pan from the oven.

5. Turn off oven and unplug when finished baking. Wait for oven to cool, then wipe clean with a damp cloth.
