GUIDE**

POWERED BY  
**POWER FUEL™** x3  
**BATTERIES INCLUDED**

Replace with 3 x 1.5V "AAA" or LR03 size alkaline batteries. Phillips/cross head screwdriver (not included) needed to replace batteries.

## Getting to Know Your Pet

### Back sensor

When you pet your toy puppy on its back, it will lift its head and blink its eyes!

ON/OFF switch and battery door on tummy.

A sensor is a part of the toy that responds to your touch!

## How to Play

To activate your toy puppy, slide the OFF/ON switch on puppy's belly to the ON position.

Once turned on, your “sleepy” puppy toy will slowly “wake up.” It will move its head to an upright position and open its eyes.

There are two ways to interact with your toy puppy:

1. Pet your puppy's back every few seconds — it will stay “awake” and continue to move its head and open its eyes.

2. **Constantly pet your toy puppy's back** — it will relax, put its head down, close its eyes and go to “sleep.” If you stop petting it, your puppy will “wake up” and look for more attention. If you don't pet it again after that, it will go back to “sleep.”

**NOTE:** The toy uses battery power whenever its switch is in the “ON” position. When you're not playing with the toy, move its switch to the “OFF” position. This will help conserve battery life.

## **CLEANING & CARE**

To clean your pet, gently brush its fur with a cloth or soft brush to loosen any dirt. Then use a slightly damp cloth to remove stains.

- Do not put in the washing machine.
- Do not submerge in water.
- Do not use detergent or stain removers on fur.
- Do not get wet; to remove stains, use only a slightly damp cloth on the fur.
- To prevent staining fur, wipe off dirt immediately.
- If toy gets wet, remove batteries and dry the fur; once fur is completely dry, replace batteries.
- **Avoid spilling food or beverages on the toy.**
- Do not throw or kick the toy, and do not push sharp objects through the speaker openings.
- Do not leave toy in direct sunlight: high temperatures will destroy the mechanism.

## To Replace Batteries

Use a Phillips/cross head screwdriver (not included) to loosen screw in battery compartment door on puppy's belly (screw remains attached to door).

Remove and discard old batteries. Replace with fresh 3 x 1.5V "AAA" or LR03 size alkaline batteries.

Replace door and tighten screw.

## IMPORTANT: BATTERY INFORMATION

### CAUTION:

1. As with all small batteries, the batteries used with this toy should be kept away from small children who still put things in their mouths. If they are swallowed, promptly see a doctor and have the doctor phone (202) 625-3333 collect. If you reside outside the United States, have the doctor call your local poison control center.

2. Always follow the instructions carefully. Use only batteries specified and be sure to insert them correctly by matching the + and – polarity markings.
3. Do not mix old batteries and new batteries or standard (carbon-zinc) with alkaline batteries.
4. Remove exhausted or dead batteries from the product.
5. Remove batteries if product is not to be played with for a long time.
6. Do not short-circuit the supply terminals.
7. Should this product cause, or be affected by, local electrical interference, move it away from other electrical equipment. Reset (switching off and back on again or removing and re-inserting batteries) if necessary.
8. **RECHARGEABLE BATTERIES:** Do not mix these with any other types of batteries. Always remove from the product before recharging. Recharge batteries under adult supervision. **DO NOT RECHARGE OTHER TYPES OF BATTERIES.**

**NOTE TO UK CONSUMERS:** This product and its batteries must be disposed of separately at your local waste recycling centre. Do not dispose of in your household waste bin.

## FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Consult the dealer or an experienced radio/TV technician for help.

**CAUTION:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
