**CARE  
GUIDE**

## BATTERIES INCLUDED

Replace with 3 x 1.5V "AA" or LR6 size alkaline batteries. Phillips/cross head screwdriver (not included) needed to replace batteries.

**Note to Consumer:** This toy is packaged in "TRY ME" mode. When you bring the toy home, activate its full range of features by moving its ON/OFF/TRY ME switch to the "ON" position.

## Getting to Know Your Pet

Back sensor  
ON/OFF/TRY ME switch and battery door

Mouth sensor

Left foot sensor

A sensor is a part of the toy that responds to your touch!

## How to Play

To turn on your pet, pull back the plush flap over the battery door and slide the ON/OFF/TRY ME switch to ON. Then replace the flap. He will giggle to show he's ready to play with you!

To start playing with your LuvCubs toy, you can pet his back, squeeze his left foot or "feed" him his bottle.

## "FEEDING"

Place your pet's bottle in his mouth and listen as he "drinks" it! If you stop "feeding" him and he still wants more, he will let you know. But watch out - if you pet his back after "feeding" him, he may have a surprise burp in store for you!

If you don't play with your LuvCubs bear after you "feed" him, he may get the hiccups!

## HUGGING

Your LuvCubs baby bear loves hugs and will hold out his arms when he wants one! When you give him a hug, be sure to press his back sensor so he will hug you back.

## PETTING

Petting your LuvCubs bear on his back makes him feel comfortable and relaxed. You will hear him yawn – that means he is getting “sleepy.” Simply press down on his back for 3 seconds to make him go to “sleep.”

## PEEK-A-BOO

Playing peek-a-boo is your LuvCubs bear's favorite game! Squeeze his left foot for about 1 second and he'll hide his eyes to start playing. Squeeze his foot again and he'll “peek” at you. Keep squeezing his foot to play some more!

## TICKLING

Your LuvCubs baby bear loves to be tickled! Squeeze his left foot to make him giggle.

## SLEEP MODE

Your LuvCubs bear will go to “sleep” and shut down if he is not played with for about a minute. You can wake him up by petting his back, “feeding” him, or squeezing his left foot.

**NOTE:** The toy uses battery power whenever its switch is in the “ON” position. When you're not playing with the toy, move its switch to the “OFF” position. This will help conserve battery life.

## GROOMING YOUR PET

Just like a real bear, your LuvCubs pet likes to stay clean. But make sure he doesn't get wet! Gently brush his fur with a cloth or soft brush to loosen any dirt. You can use a slightly damp cloth to remove stains, but don't use any cleaners on your LuvCubs baby bear.

## TROUBLESHOOTING

If your pet doesn't seem to respond properly, first try sliding the ON/OFF/TRY ME switch to OFF, then back to ON. If that doesn't work, you may need to replace the batteries.

### To Replace Batteries

1. Locate battery compartment on bear's tummy. Be sure ON/OFF/ TRY ME switch is turned to OFF.
2. Loosen screw on battery door.
3. Remove and discard old batteries.
4. Replace with fresh 3 x 1.5V "AA" or LR6 size alkaline batteries.
5. Replace door and tighten screw.

## IMPORTANT: BATTERY INFORMATION

### CAUTION:

1. Always follow the instructions carefully. Use only batteries specified and be sure to insert them correctly by matching the + and - polarity markings.
2. Do not mix old batteries and new batteries or standard (carbon-zinc) with alkaline batteries.
3. Remove exhausted or dead batteries from the product.
4. Remove batteries if product is not to be played with for a long time.
5. Do not short-circuit the supply terminals.
6. Should this product cause, or be affected by, local electrical interference, move it away from other electrical equipment. Reset (switching off and back on again or removing and re-inserting batteries) if necessary.
7. RECHARGEABLE BATTERIES: Do not mix these with any other types of batteries. Always remove from the product before recharging. Recharge batteries under adult supervision. **DO NOT RECHARGE OTHER TYPES OF BATTERIES.**

NOTE TO UK CONSUMERS: This product and its batteries must be disposed of separately at your local waste recycling centre. Do not dispose of in your household waste bin.

## FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Consult the dealer or an experienced radio/TV technician for help.

**CAUTION:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
