

# Jenga® Girl Talk.

## INSTRUCTIONS

AGES 8+ / 1 OR MORE PLAYERS

Girl Talk games are all about getting together with your friends and having fun. Sure, there's a way to win if you want to be competitive, but there's also room for plenty of LOL moments in each game so you can just sit back, chill out and have a great time with the girls.

### CONTENTS

- 54 Precision-crafted solid wood JENGA® blocks with 54 fun questions
- Stacking sleeve to assemble the tower

### OBJECT

Remove one block at a time from the tower and stack it on top. The last player to stack a block without making the tower fall wins the game!

### SETUP

- Empty all of the blocks onto a flat surface.
- One person uses the stacking sleeve to build up the tower by placing layers of three

wooden blocks at right angles to each other. When you finish, you'll have a solid, 18-level tower that can more than double during play!

- Carefully stand the sleeve upright, then remove it so the tower stands by itself.

### GAMEPLAY

The player who built the tower goes first. Play passes to the left.

#### On Your Turn

Carefully remove a block from anywhere **BELOW** the highest completed level. (Use only one hand!) Read the question on the block out loud, then answer it

out loud. Be honest, be creative! Then stack the block on top of the tower at a right angle to the blocks just below it.

### Removing and Stacking Blocks

- Remove and stack one block per turn. Remember — use only one hand. (You can switch hands whenever you wish!)
- As play proceeds and the weight of the tower shifts, some blocks become looser than others and are easier to remove. You can touch other blocks to find a loose one — but if you move a block out of place, you must fix it (using one hand only) before touching another block.
- While stacking, always complete a 3-block level before starting a higher one.
- Your turn ends 10 seconds after you stack your block — or as soon as the player to your left touches one.

- Keep removing and stacking blocks until someone topples the tower. A real pro can build a tower 36 levels high or more!

### WINNING

If you're the last player to stack a block without toppling the tower, you win! The player who makes the tower fall gets to set up the tower for the next game.

### GAME VARIATIONS

- After pulling out a block, choose someone else to answer the question, instead of answering it yourself.
- Or have all players answer the question!
- Play alone for practice! Can you top your record height before the tower falls?

We will be happy to hear your questions or comments about this game. Please write to: Hasbro Games, Consumer Affairs Dept., P.O. Box 200, Pawtucket, RI 02862. U.S.A. Tel: 888-836-7025 (toll free). European consumers please write to: Hasbro UK Ltd., Hasbro Consumer Affairs, P.O. BOX 43, Caswell Way, Newport, Wales, NP19 4YD, or telephone our Helpline on 00 800 2242 7276.
