

# IMPORTANT CLEANING INSTRUCTIONS:

**1** LUNAR LAVA™ is reusable. Remove drip dish plate and pour excess LUNAR LAVA™ gel into bottle.

**2** Wash drip dish and drip dish plate with soap and warm water. Wipe dry.

**3** Wipe spilt LUNAR LAVA™ gel from light-up zone with a damp cloth.

**Stain Advisement:** Note that LUNAR LAVA™ gel may stain some surfaces. Adult supervision is recommended. Wash with soap and warm water.

**Cleaning up METEOR MUD™ compound:** If spilt, remove excess compound, allow to dry, then scrape or vacuum deposits away. Always put compound back in container after play. Store in a cool place. If necessary, water may be added one drop at a time to restore softness.

**NOT A FOOD ITEM. NONTOXIC.**

**NOTE:** Adult should remove and discard plastic packaging. Molded results vary depending on child's age and level of skill. Product and colors may vary.

**NOTICE TO PARENTS: CONTAINS WHEAT. NONTOXIC. CONFORMS TO ASTM D-4236.**

⚠ Not suitable for children under 3 years because of small parts – choking hazard.

**WARNING:**  
⚠ CHOKING HAZARD—Small parts.  
Not for children under 3 years.

COMPOUND NET WT. 3 OZ. (85 g)  
GEL NET WT. 4 FLUID OZ. (118 ml)

Class 1 LED product.

**CONTENTS:** Playset with drip dish and drip dish plate, plastic knife, alien mold plate, tweezers, 2 two-ounce bottles of LUNAR LAVA™ gel (net wt. 4 fl. oz., 118 ml) and 1 three-ounce can of METEOR MUD™ compound (net wt. 3 oz., 85 g).

**BATTERIES REQUIRED**  
x3 1.5V AAA or R03 size  
NOT INCLUDED

Alkaline batteries recommended. Phillips/cross head screwdriver (not included) needed to insert batteries.

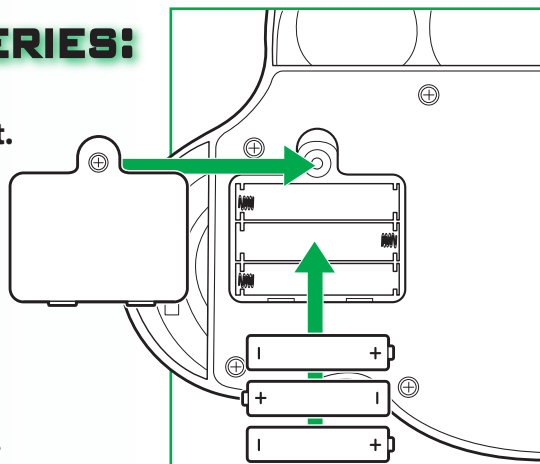

## IMPORTANT: BATTERY INFORMATION

### ⚠ CAUTION:

1. As with all small batteries, the batteries used with this toy should be kept away from small children who still put things in their mouths. If they are swallowed, promptly see a doctor and have the doctor phone (202) 625-3333 collect. If you reside outside the United States, have the doctor call your local poison control center.
2. Always follow the instructions carefully. Use only batteries specified and be sure to insert them correctly by matching the + and - polarity markings.
3. Do not mix old batteries and new batteries or standard (carbon-zinc) with alkaline batteries.
4. Remove exhausted or dead batteries from the product.
5. Remove batteries if product is not to be played with for a long time.
6. Do not short-circuit the supply terminals.
7. Should this product cause, or be affected by, local electrical interference, move it away from other electrical equipment. Reset (switching off and back on again or removing and re-inserting batteries) if necessary.
8. RECHARGEABLE BATTERIES: Do not mix these with any other types of batteries. Always remove from the product before recharging. Recharge batteries under adult supervision. DO NOT RECHARGE OTHER TYPES OF BATTERIES.

## TO INSERT BATTERIES:

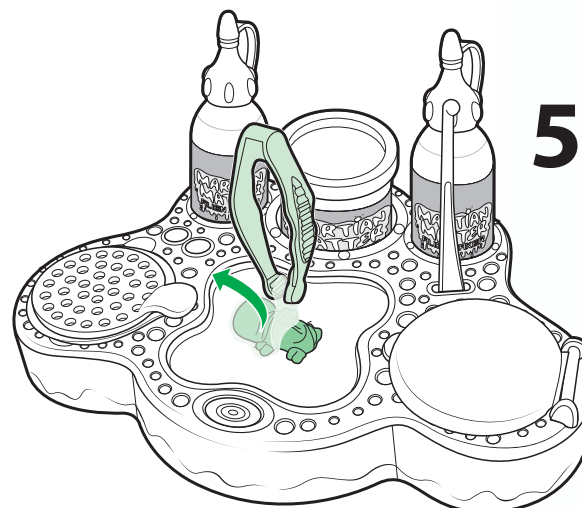

Battery cover is located on the bottom of the Alien Lab™ playset. Using a Phillips/cross head screwdriver (not included), loosen screw in battery compartment cover (screw stays attached to cover). Insert 3 x 1.5V "AAA" or R03 size batteries (not included). Replace cover and tighten screw.

## 4 Let sit for 5 minutes.

## 5 Peel off alien skin with the plastic knife and tweezers provided.

## 6 Place removed skin over guts, then press button to light up the dissection table.

**NOTE:** Lights will turn off automatically after a short time.

## 7 Dissect the guts!

# MAKE ALIEN SKIN

**1** Press METEOR MUD™ compound into alien half-mold.

**2** Remove molded alien from half-mold and trim excess compound with the plastic knife provided.

**3** Place alien on drip dish plate and squeeze LUNAR LAVA™ gel onto alien.

# ASSEMBLY

Insert drip dish into indentation and place drip dish plate on top as shown.

# MAKE ALIEN GUTS

**1** Open hatch and fill chamber with METEOR MUD™ compound all the way to the rim.

**2** Push hatch down until it closes.

**3** Open hatch. The METEOR MUD™ compound now has impressions of heart, spine and brain guts in it. Fill impressions with Lunar Lava™ gel all the way to the top, but do not overfill them.

**4** Place some METEOR MUD™ compound on a smooth surface and flatten it into a disc.

**5** Place METEOR MUD™ compound disc on top of filled guts impressions, and gently pat it down.

**6** Let guts sit for 3-5 minutes to give LUNAR LAVA™ gel time to harden.

**TIP:** For gooey guts, remove from METEOR MUD™ compound after 3 minutes. To create solid guts, leave them in the METEOR MUD™ compound for the full 5 minutes.

**7** After giving LUNAR LAVA™ gel time to harden, remove METEOR MUD™ disc, and lift guts out of the METEOR MUD™ impression. Use the plastic knife to cut away any excess LUNAR LAVA™ gel from the guts.

**NOTE:** METEOR MUD™ compound is reusable! To make more guts, repeat steps 1-8.

**8** Place guts on dissection table.
