## CONTENTS

72 My Little Pony Picture Cards, 1 Storage Tray

## OBJECT

To find the most pairs of matching My Little Pony picture cards.

## ASSEMBLY

Carefully punch out all of the die-cut cards from the cardboard sheets.

## SETUP

1. Mix the cards up and spread them facedown on a flat surface. NOTE: Keep the tray for storing the cards. This will prevent them from becoming nicked or marked.

2. Form 9 rows of cards across and 8 rows down, using all 72 cards. Then without looking, remove one card and set it aside facedown out of play. (This will create an odd number of matching pairs and reduce the possibility of a tie.)

3. FOR BEGINNERS: Use only 36 cards (18 matching pairs) and form 6 rows across, 6 rows down.

## HERE'S HOW TO PLAY!

The youngest player goes first. Players then take turns, to the left, turning any two cards picture-side-up. The cards must be turned over completely, so all players can see them.

## A MATCH

A player makes a match if the two cards turned picture-side-up are identical. When a match is made, the player takes both cards and places them in front of him/her. That player takes another turn, and continues taking turns until he/she misses.

## A MISS

A player misses if the two cards turned picture-side-up are not identical. When a player misses, he/she turns the two cards picture-side-down again, in the same place. That player's turn ends. All players should try to remember which cards were turned over for future matches!

The game continues until all possible matches have been made and those cards have been removed from the playing area. All players then count up their matching pairs.

## WINNING

If you have the most pairs of matching cards, you win!

## SOLO PLAY

This is excellent practice for developing concentration and memory skills. Just set up the game as described above, using any number of pairs, and count the number of turns it takes you to match them all. Try to improve with each game you play. NOTE: You do not have to remove a card during the game setup for Solo Play.
