GETTING TO KNOW YOUR TOY PONY

Tissue Box
Tissues (2)

Toy Thermometer

Toy Medicine
Spoon

Toy Stethoscope

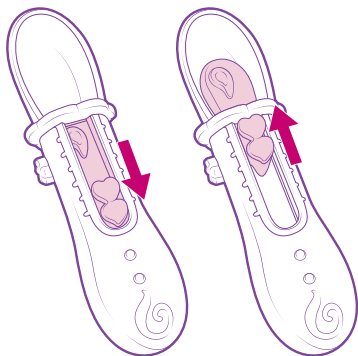

PLAYING WITH THE YOUR PONY

Your toy pony will speak to you as you help her get all better!

When you press any of the toy pony's switches, she will respond. You may activate these switches using your fingers or the enclosed accessories. For example:

- Take the end of the Toy Stethoscope and press the butterfly on your pony's tummy: you will hear the sound of "butterflies in her stomach"!
- Take the Toy Thermometer and insert it into your pony's mouth. A smiling face on the Toy Thermometer means your pony is feeling great, but an unhappy face means she is not feeling well!
- Take a tissue and pretend to wipe your pony's nose: you will hear the sound of a "sniff" or "sneeze"! (If you don't play with your pony for a short time, you will need to activate a different switch before your pony's Nose Sensor will work again.)
- Open and close the toy bandage on your pony's leg to see if she has a boo-boo!
- Slide the lever on the Toy Medicine Spoon as you insert it into the pony's mouth. Pretend your pony is taking her medicine!
- Take the end of the Toy Stethoscope and press the heart on your pony's chest: you will hear a "heartbeat."

NOTE: Although you may wear the Toy Stethoscope, you do not hear anything through its earplugs.

TO REPLACE BATTERIES

Using a Phillips/cross head screwdriver, loosen screw in battery compartment cover (screw stays attached to cover). Replace with 3 x 1.5V “AAA” or R03 size batteries (not included). Alkaline batteries recommended. Replace cover and tighten screw.

CAUTION:

1. As with all small batteries, the batteries used with this toy should be kept away from small children who still put things in their mouths. If they are swallowed, promptly see a doctor and have the doctor phone (202) 625-3333 collect. In other countries, have the doctor call your local poison control center.
2. Make sure the batteries are inserted correctly and always follow the toy and battery manufacturer's instructions.
3. Do not mix old and new batteries, alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium) batteries.

IMPORTANT: BATTERY INFORMATION

Please retain this information for future reference.
Batteries should be replaced by an adult.

CAUTION:

1. Always follow the instructions carefully. Use only batteries specified and be sure to insert item correctly by matching the + and – polarity markings.
2. Do not mix old batteries and new batteries or standard (carbon-zinc) with alkaline batteries.
3. Remove exhausted or dead batteries from the product.
4. Remove batteries if product is not to be played with for a long time.
5. Do not short-circuit the supply terminals.
6. Should this product cause, or be affected by, local electrical interference, move it away from other electrical equipment. Reinsert batteries if necessary.
7. RECHARGEABLE BATTERIES: Do not mix these with any other types of batteries. Always remove from the product before recharging. Recharge batteries under adult supervision. DO NOT RECHARGE OTHER TYPES OF BATTERIES.
8. As with all small items, these batteries should be kept away from children. If swallowed, seek medical attention immediately.

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Consult the dealer or an experienced radio/TV technician for help.
