ASSEMBLE FRONT FRAME AS SHOWN.

THIS WILL BE DONE IN THREE STEPS:

1. Start with the base—just like building a normal house.

2. Build the castle walls—add all the vertical tubes with the connectors on the top. Add tubes for the top of the walls.

3. Build the roof—add the tubes and connectors, as shown. The roof will create a four-sided peak.

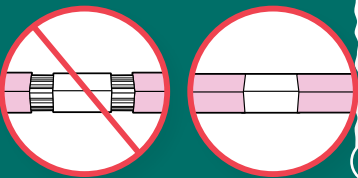

FRONT FRAME ASSEMBLY:

PARTS REQUIRED FOR THIS STEP:

- All connectors
- All white frame tubes

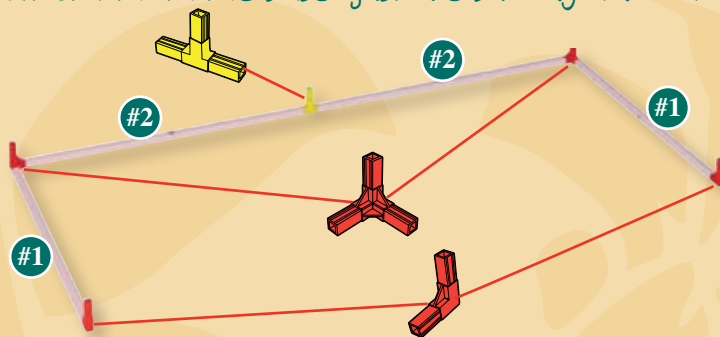

MAKE SURE CONNECTORS ARE PUSHED INTO THE TUBES AS FAR AS THEY WILL GO.

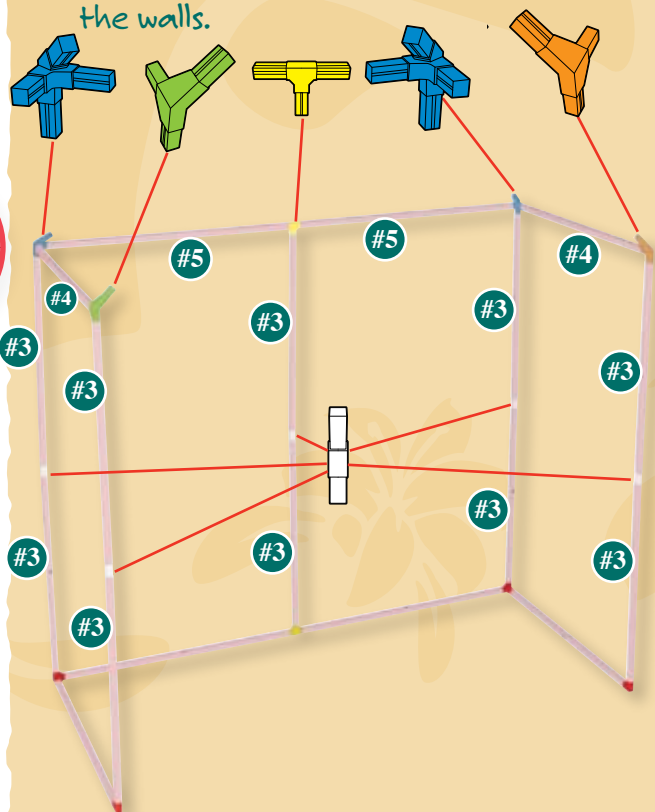

ASSEMBLE BACK FRAME AS SHOWN.

THIS WILL BE DONE IN THREE STEPS:

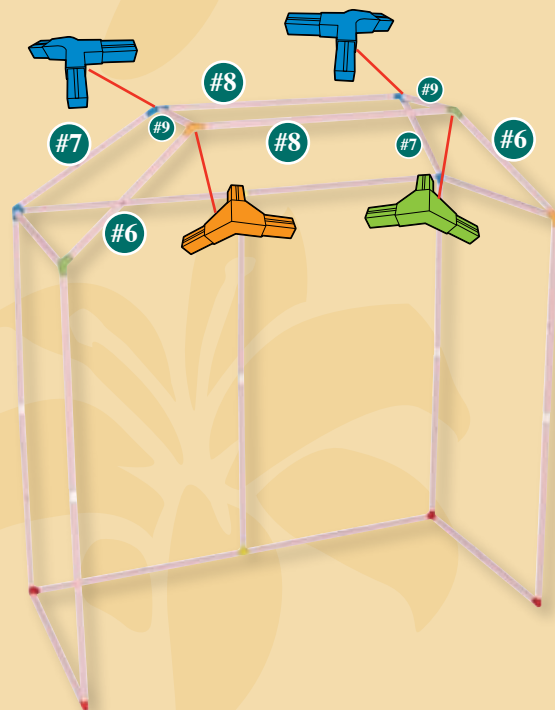

1. Start with the base—just like building a normal house.

2. Build the castle walls—add all the vertical tubes with the connectors on the top. Add tubes for the top of the walls.

3. Build the roof—add the tubes and connectors, as shown. The roof will create a four-sided peak.

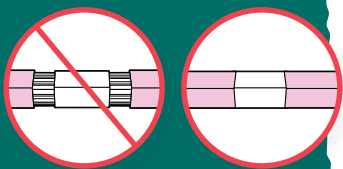

BACK FRAME ASSEMBLY:

PARTS REQUIRED

FOR THIS STEP:

- Remaining connectors
- All pink frame tubes

MAKE SURE
CONNECTORS ARE
PUSHED INTO THE
TUBES AS FAR AS
THEY WILL GO.

SWEET LILY CASTLE BACK COVER

1. Assemble pink frame as shown on page 3.
2. Remove the SWEET LILY Castle back cover from the bag marked "Back."
3. Completely unzip the cover all the way around.
4. Separate the inside and outside walls by pulling apart the hook-and-loop fasteners (don't forget the windows!).

5. Lay the cover out so both the rectangular red seam and lavender wall face up.

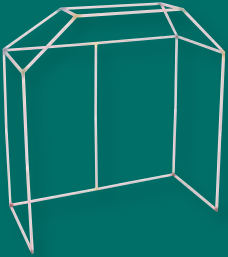

6. Line up the frame on the red seam as shown.

CASTLE BACK COVER:

PARTS REQUIRED FOR THIS STEP:

- Completed Frame (pink)

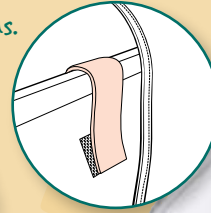

- SWEET LILY Castle Back

7. Lift the inside wall up and attach it to the frame with the hook-and-loop fasteners.

Make sure the bottoms of the strips line up with the bottoms of the pads.

8. Pull out any excess cover from the outside corners of the frame base to make a snug pocket. Pull the cover over the closed end of the frame and across the top of the roof (you may need a helper). The zipper strip should align with the frame.

9. Zip up the cover around the frame. Press the three hook-and-loop fasteners along inside the cover at the top of the frame to keep the roof from sagging.

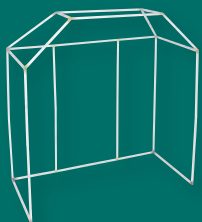

10. Align and fasten the hook-and-loop fastener around both windows.

The back of the castle is now complete. Let's do the front!

Castle Front

SWEET LILY CASTLE FRONT COVER

1. Assemble white frame as shown on page 2.
2. Remove the SWEET LILY Castle front cover from the bag marked "Front".
3. Completely unzip the cover all the way around.

4. Unzip the front doors.

5. Separate the inside and outside walls by pulling apart the hook-and-loop fasteners.

6. Lay the cover so the rectangular red seam is exposed. The pink inside wall is over the the printed floor. The doors should be tucked under the floor.

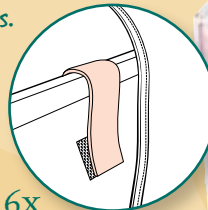

6. Line up the frame on the red seam, as shown.

7. Lift the inside wall up and attach it to the frame with the hook-and-loop fasteners.

Make sure the bottoms of the strips line up with the bottoms of the pads.

8. Pull out any excess cover from the outside corners of the frame base to make a snug pocket. Pull the cover with the doors over the closed end of the frame and across the roof (you may need a helper). The zipper strip should align with the frame.

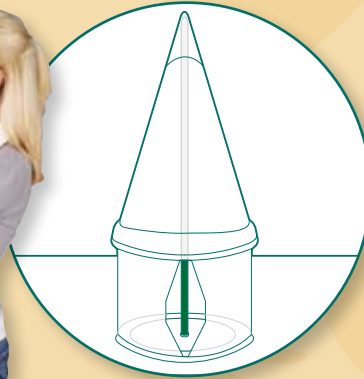

9. Zip up cover around the frame. Press the three hook-and-loop fasteners along inside the cover at the top of the frame to keep the roof from sagging.

10. Fasten the two wide hook-and-loop fasteners around the vertical tubes on both sides of the door. Zip up the door.

11. Unhook the fasteners in the roof turret. Raise the turret by bending the green plastic tube to fit inside. The flat end fits in the middle of the center disk at the bottom and the cone-shaped end faces up.

The front of the castle is now complete. Let's build the towers!

TOWER ASSEMBLY:

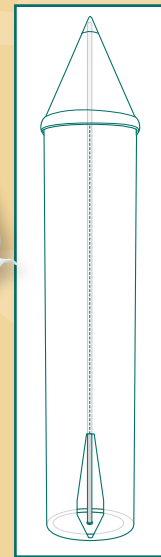

PARTS REQUIRED FOR THIS STEP:

- 2 Tower covers
- 4 Grey plastic tubes
- 2 Grey plastic connectors

1. Take two grey tubes and one connector. Insert a tube into each end of connector.

2. Open the hook-and-eye fasteners in the tower. Insert one end of the tube into the tower up to the top point. Fit the bottom of the plastic tube into the middle of the center disk in the tower floor.

STORAGE:

3. Reclose the tower and attach it to the hook-and-loop fasteners at the front corners of the castle. The windows face out. Repeat Steps 1, 2 and 3 for the second tower.
