INSTRUCTIONS

1. Each player chooses equal numbers of figures to battle.
2. Insert the Galactic Battle cards into the bases and attach the matching figures.
3. Choose one of your figures to battle with and decide which player will go first.
4. Roll the die. Match the symbol on the die to the symbol on the left edge of card and that category's point value.
5. If there is a matching symbol in a power boost notch above the character's name, add those points. The player with highest total points wins the round. If tied, roll again.
6. Defeated figure is removed from play.
7. Choose the next figures to battle and take turns rolling the die until there is only one figure left.
8. The player with last figure standing wins!
