CHANGING TO ROBOT MODE

Reverse order of instructions to convert back to vehicle.

1. Remove the two vertical rods from the car.
2. Attach the rods to the robot's chest.
3. Flip the car upside down.
4. Attach the car's body to the robot's head.
5. Flip the car back to its original position.
6. Attach the car's wheels to the robot's feet.
7. The robot is now ready for action.

*NOTE: Some parts are made to detach if excessive force is applied and are designed to be readapted if separation occurs. Adult supervision may be necessary for younger children.*
1. Insert missile.
2. Push to fire.
