CHANGING TO ROBOT

1. Remove the back cover to access the inner robot components.
2. Flip the robot over to reveal the watch face.
3. Align the parts as shown in the diagram.
4. Insert the robot head into the body.
5. Attach the arms and legs to complete the transformation.

NOTE: Some parts are made to detach if excessive force is applied and are designed to be reattached if separation occurs. Adult supervision may be necessary for younger children.

Not a working watch.
