CHANGING TO ROBOT

1. Unfold the car model and separate the parts.
2. Assemble the robot body parts.
3. Attach the robot arms and legs.
4. Secure the body with hinges.
5. Position the head and face.
6. Adjust the limbs for balance.
7. Finalize the robot mode.

NOTE: Some parts are made to detach if excessive force is applied and are designed to be reattached if separation occurs. Adult supervision may be necessary for younger children.
